

## How Gold Dust actually works for you

The active principle of Gold Dust is a valuable antiseptic cleansing agent.

It actually works. It gets into the corners and crevices where fingers and washcloths can't reach. It permeates and dissolves dirt, grease and grime everywhere and it cleans and brightens everything.

Gold Dust does all this—does this actual work—because it is made for that purpose.

Millions of women all over the country use Gold Dust three times a day in washing dishes. They use it also for scrubbing floors, washing windows, etc.

But they do not realize all the uses of Gold Dust. Gold Dust is the only washing and cleaning powder needed in any home.

♦ ♦ ♦ ♦

Gold Dust cleans metal work, nickel, enameled ware, etc., without scratching or marring the surface—leaving it sanitariously clean, bright and new-looking.

The use of Gold Dust is an economy. There can be no waste when you use the exact small quantity required for each specific purpose. It is at once taken up by hot or cold water, forming the perfect cleansing solution.

No soap or other cleansing help is needed. Gold Dust does it all, and Gold Dust does its work far better than anything else can.

Use Gold Dust not only for washing dishes, but for washing bathtubs and bathroom fixtures, cleaning oil mops, cleaning and freshening linoleum and oilcloth, cleaning and brightening pots, pans and cooking utensils, giving luster to glassware—for every cleaning and brightening purpose.

Gold Dust is as inexpensive as it is indispensable.

## LIQUOR PRICES IN ENGLAND SOAR SKYWARD

DIFFERENCE OF \$3 THE GALLON MADE IN WHISKY AND BRANDY

London, May 26.—Those people of the British Isles who Saturday went to purchase their supplies of wines and spirits for Sunday found that the prices had been increased in proportion to the new taxes which the government proposes to levy in its effort to lessen drinking and increase the output of munitions of war.

The price of whisky and brandy by the bottle had been increased by 50c, which meant a difference of \$3 to those who purchased by the gallon. All stocks had been taken out of bond long before the new taxes were levied and therefore had cost the dealers no more than usual. The dealers explained, however, that the demand had been so great that they were compelled to conserve their supplies, wholesale dealers having for some time, in anticipation of the new legislation, refused to deliver goods at the old prices.

The price of beer has not yet been affected, nor did whisky and brandy cost more when bought by the glass, except in a few places. Wines varied according to the class of the places where it was purchased.

Trade Still Protesting.—Meanwhile protests from the trade continue. The Burton brewers, in a resolution passed at a meeting, declared that as regards pale ale, for which the town is famous, the proposed increased tax, together with the war tax levied last November, would amount to more than 700 per cent.

Ireland would be particularly hard hit, for, outside of whisky, the Irish breweries make a large part of the heavier beers consumed in the world and the tax on these would be very heavy.

Newspapers which a few weeks ago favored absolute prohibition opposed the new proposals, which, they insist, are unfair to the trade, unnecessary and would not achieve the desired object. The bishop of London urged the public to sacrifice drink for the general good. It would make the people realize, he said, that there really was a war, and he asked his hearers to back up the government in "its brave efforts to grapple with an evil which was throttling the nation's life."

Official figures of the time lost by the iron workers of the Clyde and the Northeastern coast of England, presumably because of the lure of drink, show that of those engaged in the mechanical equipment of the army and navy during the month of March 26 per cent worked under forty hours a week, including overtime. Virtually 50 per cent worked less than forty-five hours a week. The ordinary number of hours worked in time of peace was fifty hours.

Work Less than Eight Hours.—These statistics, therefore, mean that half the men in the metal and shipbuilding trades in England's great iron working district are working less than eight hours a day in a six-day week.

## OIL WELL ACTIVITIES TO BEGIN AGAIN

(CONTINUED FROM PAGE ONE)

Coughlin today. "If gas or oil is struck in the Carter well it means much to Guthrie and Logan county. Property values would soar skyward and the city would take on a boom that would ultimately make our city the metropolis of the state. The chamber of commerce now has under consideration a number of propositions for cotton ammunitions that depend altogether on cheap fuel. Give us either oil or gas and not less than 5,000 shop hands will be added to the payroll in Guthrie."

When the committee calls on you help them. Now is the time to make the test good.

Reports from the Orlando well indicate that oil will be brought in within the week.

Letter rates for sale at The Leader office. Price 35c. 3 for \$1.00.

An active, sneering enemy is at more real value to a man than three ordinary friends.

## TOPICS OF THE TOWN AND STATE

Modern Brotherhood.

Modern Brotherhood of America will meet at McNulty's hall Thursday evening, May 27, at 7:30. All urged to be present.

Church of the Brethren—East End.

Do you want to know why the Brethren dip three times in baptism? Come tonight, Thursday, and you will hear. "Do you want to hear a good solo singer? Come each evening and you will hear Miss Dora Grice of Enid. The remainder of the week is as follows: Thursday night: "Time Immersion." Friday night: "Singing on Hells." Saturday night: "A Bunch of Keys." Sunday morning: "Illustrated Version of John 12:32." Sunday afternoon: "Obedience Better Than So Many." Sunday night: "Communion service."

Sells His Farm.

C. F. McCabbin has sold his farm north of town to a Kingfisher man. He will sell his dairy stock June 2.

Aggie Board to Meet.

President Frank M. Gault of the state board of agriculture stated Wednesday night that a call had been issued for a meeting of the old board of agriculture for June 1. At that time the old board will wind up its affairs and turn the department of agriculture over to the new board, recently appointed by Gov. R. L. Williams.

Form Law Partnership.

J. B. Robertson and R. K. Robertson have announced the formation of a law partnership with offices in the Berrill building, Sapulpa.

Cassidy Has Big R. R. Contract.

Mike Cassidy is over from the oil field where he has a contract to build 15 miles of railroad for the Santa Fe. "A little mix up in right-of-way has stopped work on part of the work temporarily," he said. Mr. Cassidy has 150 teams at work.

## CARD OF THANKS

We wish to thank our many kind friends and neighbors and the association of the city, for the many kindnesses extended during our hour of bereavement following the death of our father and husband—Mrs. Fred Whitte and sons; Mr. and Mrs. E. B. Bondlinger.

## CHARGED WITH FORGERY

D. M. Cross, sheriff of Major county is here today with a prisoner en route to Texas. Adolph Kayser, ex-soldier, the prisoner, is charged with forging a deed at Gouldsboro, Texas.

Manufacturer of Store and Office Awnings, Tents, Porch Curtains, Portable House Tents, Harness and Saddlery.

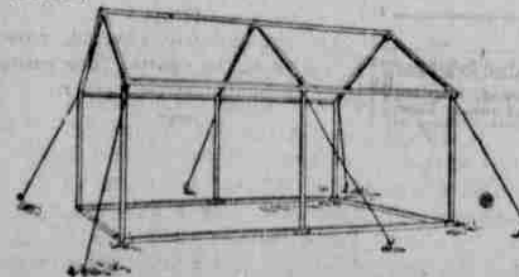

## LIVE IN A TENT AND BE HEALTHY

Eight million out of 75,000,000 people in the United States die of consumption.

Tuberculosis is a communicable scourge, but it is not a contagious one in the sense that smallpox is.

Two women to every man die of the scourge in the United States.

Dark rooms, covered porches, no sun, light, and air work amid unsanitary surroundings, occupying a place where consumptive has lived, are the chief causes of the scourge.

Buy a tent or have Heilman of the Guthrie Tent and Awning Company build a sleeping porch for you and be healthy. Fresh, pure air drives away the blues and cures tuberculosis. Try it.

## ED HENRY IS MISSING FROM OILTON OFFICE

(CONTINUED FROM PAGE ONE) distance of less than a mile on foot, he started on his journey and since that time has not been seen or heard of.

Friends at Oilton are searching

the river banks and the country along the Cimarron. A telephone to Al Lee, today from Mrs. Elmore McGulley, stated that Elmore, Ben Herkey, Corb Sarchet and Chas. Griswold had been out searching for him since Tuesday afternoon. W. H. Coyle left for Oilton today to investigate. Mrs. Henry, wife of the missing

man lives here, and is prostrated over the disappearance of her husband. One of her boys, Germaine, is at Oilton. Late this afternoon he telephoned his mother that nothing had yet been learned.

## O. M. U. TRUSTEES HOLD ANNUAL MEETING IN CITY

(CONTINUED FROM PAGE ONE)

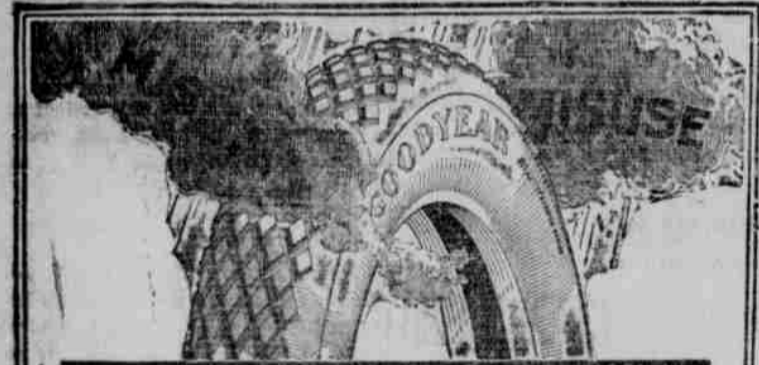

Commencement Exercises. The commencement exercises of Friday morning will open with the academic procession promptly at 10:30 o'clock, in which the trustees, the graduates, the faculty, and the president and commencement orator will march in college procession to their places in the church auditorium. The orator of the day will be Bishop Wm. O. Shepard, LL. D., of Kansas City, who comes directly from a succession of college addresses and conferences. He will arrive over the Rock Island from Chandler at 10 o'clock, and will reach the church in ample time for his address to the graduates. Degrees and diplomas will be presented by President Hiesop to a class of eighteen young men and women, who are finishing the courses of the college of liberal arts, the department of oratory, the department of music, and the kindergarten training school. There will be special music by Mrs. Moorehead, Miss Hoyt, Miss Trumbull, and Mr. Ryan of the university music faculty, and the whole program will be in entire keeping with the traditional solemnity and form of college graduations. It is hoped that there will be a splendid audience of Guthrie friends and patrons of the university to greet the visitors on the occasion and unite with the university in extending a royal welcome to the trustees and Bishop Shepard.

Sun Gold for economy. The best is always the cheapest.

High waters on the east side of the state has damaged property to the extent of half million dollars.

Sun Gold for lightbread, biscuits, pies and pastries.

Jack Langston is marketing his first crop of cherries. They are fine and free of worms, the trees having been sprayed frequently.

## Mishap—Misuse

The Only Clouds That Ever Dim The Glory of Fortified Tires

Goodyear tires, like other tires, meet with ill-luck at times. No doubt some men are judging them by some such rare exception.

To them we say this: Remember that men have tested nearly five million Goodyear tires. The tests have covered 15 years. Long ago those tests placed Goodyears at the top, and they've kept there ever since.

Last year men bought about one Goodyear tire for every car in use. Doesn't that show that men in general have proved these tires the best?

## In Five Ways

Goodyear Fortified Tires have five exclusive features. We spend ten millions of dol-

lars to reduce your tire upkeep and trouble.

One combats rim-cuts, one blowouts, one loose tread. One makes the tire secure. And one combats punctures and skidding by our double-thick All-Weather tread.

In those ways, at least, Fortified Tires excel all others.

## Lower Prices

Now these super-tires offer still greater value. On Feb. 1st we made another big price reduction. That's the third in two years, totaling 45 per cent.

We do you a kindness when we urge you to try them.

They mean to you the utmost in a tire. They mean content. Any dealer will supply you.
